# ANNUAL REPORT

OF THE

BOARD OF EDUCATION,

OF THE

TOWN OF RYE, N. H.

For the year ending, March, 1st.,

1888.

# REPORT.

---

## *To the Citizens of Rye:*

The past year has been a noteworthy one in the history of our schools. A High School has been established, for the first time, and a larger sum of money has been raised and expended than was ever before devoted to the support of schools, since the town was incorporated. It is right, therefore, that the people, who have been taxed to accomplish this result, should be furnished with the opinions of those entrusted to execute their wishes, in the usual manner required by law.

The establishment of the High School was in the nature of an untried experiment, but your Board is of the opinion that the results derived fully justify the wisdom of the experiment, and we most earnestly recommend its continuance as a fixed and permanent part of our School system, and there is no valid reason why it should not be. The town is abundantly able to maintain it, and the advantages of so doing are too obvious to need specifying. The changed, and rapidly changing conditions of everything about us demands that we should give our children increased facilities, for obtaining an education. Unless we do so,

they will be placed at a great disadvantage when they are obliged to compete with others who have had better opportunities.

In the near future their education must, of necessity, be more of a scientific character than ever before. This will require closer application, a longer term of study, more expensive text-books and apparatus, and a costlier education everyway. To the rich the problem is one of small consequence; but to the poor, or those of moderate means, it is of vital importance that the town should furnish every possible facility for obtaining a good education in our own schools. Taking this reasonable view of the subject, we renew our recommendation for the continuance of the High School and an appropriation large enough to provide for three full terms during the year. The benches, blackboards, globe, books of reference, and other furnishings, have been provided and paid for, and the future running expenses will be relatively less than during the current year.

Those who had the pleasure of attending the closing exercises of the School had an opportunity of seeing it as it was conducted in its daily *routine*. This was quite as satisfactory, upon the whole, for "examination" day is frequently misleading in regard to the actual progress made. The tendency is to make a superficial "show" upon such occasions, and sometimes the results attained are more apparent than real. The teacher, Mr. C. O. Cummings, secured the good will of the pupils at the outset, maintained a firm but kindly discipline, worked unceasingly for the interest of the school, and fully realized the expectation of the Board who secured his services.

Not alone in itself has the High School been of advantage. It has relieved the other schools of advanced classes, and given to the remaining pupils a very much better chance. Each class

of the younger pupils thus gets more time devoted to it, and all consequently make more rapid progress.

There has been no change of teachers in either of the schools during the year, and none is recommended. Miss Phillips in the South, Miss Brown in the West, Miss Merrill in the Centre and Miss Curtis in the East, have each and all performed their duties in a manner entirely satisfactory to the Board, and we hope they may be induced to continue their labors in their respective schools.

By the new apportionment of the State tax, made at the last session of the Legislature, the town will be obliged to raise a larger sum than ever before, for the support of schools, and a small appropriation in addition will be all that is needed to ensure a generous support to both our High and common schools.

It is not recommended, nor is it necessary, that the High School shall be supported by crippling the district schools— Both are necessary in their respective spheres, and both can be handsomely provided for without resorting to oppressive taxation.

G. H. JENNESS.	} BOARD OF EDUCATION.
